

EMBASSY OF THE UNITED STATES OF AMERICA

Architect/Engineer Services

The Embassy of the United States of America in Tegucigalpa has a requirement for Architectural and Engineering services associated with the completion, customization, and/or closing on the purchase of multiple (10) residential units within *Tegucigalpa*. The range of the project is between \$25,000.00 and \$100,000.00.

Firms responding to this announcement on or before closing date will be considered for selection using the following evaluation criteria in descending order of importance:

- a) Provide example of A/E Projects with scope, value and date of successful completion in the last 3 years. Examples of Construction Monitoring and Inspection Support.
- b) All information of project lead and supporting staff. Supporting information of qualifications. If necessary, the contractor may have to partner with a local A/E firm to provide such services. Additionally, if a subcontractor is to be used, a list of names, companies, address, CVs, and contact information for each individual must be provided. USG expects this firm to have expertise with local building codes and construction standards and ideally a specialty in residential construction. Licensed by the local authority, fluent in written and spoken English, and have an established office and reputation.
- c) A list of Architectural and Engineering services that are currently offered by the Firm/company.

The Embassy will select for negotiation the licensed firm that demonstrates the best qualifications. Replies to this advertisement with a completed Standard Form 330, (available upon request to the email address: contracttgu@state.gov by COB on **May 04, 2021**) must be received not later than 10:00 am local time on **May 12, 2021** in a sealed envelope to the following address:
